Job Description

Title: Software Developer

About the Company

TRAction is a leading company in the global Regtech industry providing regulatory trade reporting solutions and services to businesses dealing in OTC derivatives and other financial products requiring transaction reporting. We support over 100 clients across the world to meet their regulatory reporting obligations and report over 10 million trades daily to global regulators including ESMA, FCA, ASIC, MAS and Canadian regulators. We are an innovative company with a diverse team of driven professionals steering TRAction's successful and continued expansion.

Join us to work alongside a highly experienced and vibrant team, access opportunities for career growth and further training, gain experience liaising with global clientele, and develop invaluable skills within both the finance and rapidly expanding Regtech industry.

About the Role

The specific tasks of the role are:

- Develop quality software and web applications
- Analyze and maintain existing software applications
- Design highly scalable, testable code
- Discover and fix programming bugs
- Reviewing current systems
- Presenting ideas for system improvements, including cost proposals
- Working closely with managers and other staff on product design
- Producing detailed specifications and writing the program code
- Testing the product in controlled, real situations before going live
- Database design
- Preparation of training for users on developed systems
- Maintaining the systems once they are up and running
- Assist in application support
- Coordinating software rollouts and revisions

The Successful Applicant

We are looking for a software developer to work in a very small team, be a jack of all trades, be eager to learn and grow with the company, with the following experience and attributes:

- Appropriate tertiary qualifications or equivalent experience
- Knowledge and experience with Python, MS SQL, Linux, and AWS EC2 and S3
- Previous experience in the financial markets desirable
- 2+ years' experience in IT
- High level skills in providing accurate and validated data administration

- Demonstrate initiative and positive professional attitude
- Clear communication skills especially in documentation and liaison
- Excellent technical analytical and trouble-shooting skills

What's On Offer

- Full time role
- Exciting new company and great working environment
- Excellent entry into financial services sector
- Ability to work from anywhere
